**Practical Puzzle.**  
Our readers who are interested in puzzles should secure one of the map puzzles sent out by the Chicago Great Western railway. It is a map of the United States on heavy cardboard and cut up into states, each state and territory being on a separate piece. They are nicely colored and show the capitals of the different states, as well as the large rivers. The puzzle consists in putting the different pieces together so as to form the map of the United States. It makes more of a puzzle than would at first be supposed and will be found interesting as well as instructive to the older people as well as the young ones. Incidentally it is quite valuable as showing the comparative size of different states, and this will be a matter of some surprise. This puzzle will be sent to our readers if they will send 10 cents to Mr. F. L. Lord, G. P. & T. A., Chicago, Ill.
